

Application/Control Number 10/543,085
Examiner: DANG, HUNG XUAN

REMARKS

The Examiner is thanked for the allowance of claim 1.

Claims 5, 6 8 and 9 have been canceled. This renders moot the rejection of claims 5 and 6 for a lack of description.

~~Claims 3 and 7 have been amended to avoid the rejection under 35 U.S.C. § 112,~~
second paragraph. Claim 3 has been revised to delete the expression "respectively with one end of the temples (13) or" This amendment avoids the objection based on the observation that the first magnetic element cannot be affixed to one end of the temple (13) while the second magnet (16) is affixed to lateral extension (18).

These amendments avoid each ground of rejection that was raised in the Office Action.

An early and favorable action is earnestly solicited.

Respectfully Submitted,
